Services

Single Services or Comprehensive Packages—All On Demand

Come to Unisource Solutions for a specific piece of furniture or take advantage of our one-stop-shop ability to create and manage workspaces. Either way, our ability to succeed depends on effective planning and project management. To ensure that your objectives are met, Unisource Solutions' professional staff will analyze your current conditions, identify specific needs, and devise a strategy to make the most efficient, productive use of your office space and furnishings.

Your satisfaction and convenience is of paramount importance to us, since our goal is to continue supporting your ongoing facility requirements. Let Unisource Solutions meet your needs with our professional services:

1. Furniture Inventory and Analysis.

The most cost effective total solution will often re-use existing furniture. Unisource Solutions will conduct a thorough inventory of your current furniture to determine its most effective use in your new space. Our Distribution Center coordinates all aspects of warehousing, maintenance, and delivery of your new and existing furniture assets.

2. Space Planning and Design.

To maximize the functionality of your new or existing office space, our staff will familiarize themselves with your needs, review existing conditions and develop an effective, efficient space plan. We can help implement Sustainability Initiatives, LEED™ compliance, as well as other programs in green and adaptive workspace design. Our Design Coordinators work with both Design and Corporate Facilities Professionals—as much or as little as you need.

3. Project Management.

Our experienced Project Managers ensure the successful execution of each phase of the furniture project, from the initial needs analysis, through design, installation and punch list. We provide reports, logistics coordination, effective communication, and full accountability through our online project management software technology.

- ▶ Self-performed services, no sub-contractors.
- ▶ National applications and account programs.
- ▶ Flexible cost effective staffing models.
- ▶ Large portfolio of quality products.
- ▶ Client-tailored programs and procedures.
- ▶ Onsite fee-based professional teams.

Furniture

Overview

Brand New or Refurbished Assets

We specialize in the implementation of large-scale furniture projects and quick response to special requests. In addition to an excellent, 15-year relationship with Haworth that offers clients a selection of new furniture, Unisource Solutions can integrate existing furniture, as well as source and install replacement components.

1. Office Furniture.

- Systems furniture
- Office seating
- Desks / Casegoods
- Files / Storage
- Conference and training tables
- Work tools
- Fabric and finish options
- Haworth Preferred Dealer

2. Architectural Interior Elements.

- Modular walls
- Floors
- Utilities
- Lighting
- Quality Products

3. Acquisition Process.

- Needs analysis
- Space planning and design
- Product specification
- Order entry and expediting
- Receiving
- Delivery and installation
- Reconfiguration
- Relocation of existing furniture, boxes and equipment
- Storage and redeployment of existing product
- Project management
- Timeline and milestones

Patterns System Workwall

Featured Product

Patterns™

2006 NeoCon Silver Award

Apply as architecture or as furniture. Or let Patterns bridge them both. Patterns reacquaints the simple folded plane with interior environments – transcending traditional design rules while giving rise to virtually limitless sizes, and applications. Adaptable, sustainable and uniquely tailored, the world of Patterns is anything but flat.

From sleek, low benches and clean studio desking to architecturally intriguing workwalls and portals, Patterns imparts a new quality to the open plan and draws out your freedom to design. Studio & Partners of Milan, Italy and Haworth Design Studio designed Patterns to work in concert with the Compose™ open plan system and Enclose™ moveable walls. Unifying environments has never been easier.

Design Freedom.

Patterns brings a whole new level of visual energy and performance to the workplace through its wide range of elements...from a bench to a studio table to an architectural workwall, the ability to define and delineate space takes on new meaning with Patterns. Whether applied as private offices, open plan systems or as modular interior architecture, Patterns offers new alternatives when designing space.

Sustainability.

Always mindful of sustainability, Patterns gives clients an alternative to traditional millwork elements. Offering a strong sense of permanence throughout the floorplate, Patterns brings a “sense of place” to an environment yet inherently supports adaptability through its modularity. In addition, Patterns helps achieve LEED certification and Greenguard Certification for the product line is being pursued.

Integration.

Your interior choices expand when you blend Patterns with the Compose system and Enclose movable walls. Integration throughout an interior environment is simplified through shared design, research, technology, dimensions and material strategy. Patterns is great alone...but even better together when integrated with the Compose system and Enclose walls. Order acceptance is planned for April 2007.

Sustainability

Creating Healthy Offices

Unisource Solutions is committed to helping our clients be good corporate citizens, and offers products that comply with LEED™ and other environmental certification requirements. We believe that healthy interior spaces are just good—for the bottom line and for the environment. Unisource Solutions helps customers do well by doing good.

1. Why Green Design?

The growing trend in architecture, engineering, industrial and interior design is to minimize environmental impact, reduce waste, and relate people to the natural environment. Green design is a means of reducing negative impacts while improving quality of life. Studies have shown that Sustainability Initiatives in office interiors help improve employee productivity and performance. Eco-designed offices are healthier and reduce absenteeism. Go green, and everyone benefits.

2. What Unisource Can Do

We make Sustainability Initiatives feasible, both in terms of the economics and practical implementation. We assist clients in design and specification of products that comply with government standards like LEED™ certification. Our staff can refurbish, retool, and repurpose existing office furniture assets. Or we can help clients dispose and donate assets that have come to the end of their useful life-cycle. In short, we make it simple to go green.

3. Find Out More

Unisource Solutions works with and supports the following:

U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Green Building Rating System™ is the nationally accepted benchmark for the design, construction, and operation of high performance green buildings. LEED™ promotes a whole-building approach to sustainability by recognizing performance in five key areas of human and environmental health: sustainable site development, water savings, energy efficiency, materials selection, and indoor environmental quality.

Haworth is seriously committed to Sustainability. Haworth recognizes the interconnected relationship among people, business, and the environment, and strives to achieve the proper balance through design, materials, manufacturing, and transportation of their products. When it comes to making an impact on the environment and green-building initiatives, Haworth's goal is to lead by example.

Unisource Solutions partners with ANEW, Asset Network for Education Worldwide, an organization that facilitates reuse alternatives for surplus materials, diverting them to groups in need. Their services spare our environment while avoiding wasteful and costly dumping practices. In addition, ANEW partners with Chrysalis, a non-profit organization that provides labor opportunities for disadvantaged and formerly homeless workers.

- ▶ Green products offered
- ▶ Low-emission products to minimize interior pollutants
- ▶ Products made of or containing recycled materials
- ▶ LEED™ certification compliance programs
- ▶ LEED™ certification compliance assistance
- ▶ LEED™ registration assistance
- ▶ LEED™ accredited staff members
- ▶ Haworth is a LEED™ accredited manufacturer
- ▶ Low-energy use accessories
- ▶ Clean vehicle transportation fleet
- ▶ Adaptable workspace design strategies

Why Choose Us

Integrated space solutions.
Harmonious work environments.
Complete asset management.
Unparalleled customer service

Welcome to simple.

A great collaborative experience.

Unisource Solutions is the one-stop-shop for anything related to physical office interiors. We're a full service contract furniture dealership that can manage the entire process from start to finish. We understand the needs and requirements of design and corporate facilities professionals. We work hard to help all our clients maintain the beauty and value of their assets over time.

1. We are the office experts.

It's what we do. From planning to procurement, design to delivery, wish lists to warehousing, Unisource has the relevant experience to get the job done. Whether it's project-to-project or site-to-site, we've done it before and we'll do it again— efficiently, cost-effectively, and with a smile.

2. We've got the right people.

Our staff cares about making life easier for clients. Everyone at Unisource Solutions is a trained professional, providing amazing service and support. We're dependable, resourceful and fully accountable. Teamwork and know-how have combined time after time to make the impossible possible or a routine request just more enjoyable.

3. We've got the best products and service.

We've got the perfect solution to match clients' priorities and preferences. Unisource Solutions has been a Preferred Haworth Dealer for 15 years. Our technology infrastructure is state of the art, so our clients always have the information they need when they want it.

“The Unisource team has worked to make our moves as efficient and cost-effective as possible.”

—Colleen, Senior Manager
